FOR IMMEDIATE RELEASE

July 28th, 2015

Ideal Aviation Joins the Paragon Network

Houston, TX – July 28, 2015 – Ideal Aviation, located at the St. Louis Downtown Airport (KCPS), will be an official member of the elite Paragon Network as of August 1st, 2015.

Known as “The Place for Pilots”, Ideal Aviation has been providing exceptional service to pilots and passengers at the St. Louis Downtown Airport since 1983. The FBO’s state-of-the-art facility, completely remodeled in 2012, provides a full range of services to support pilots and passengers alike. Ideal Aviation’s mission is to provide exceptional service for owners, passengers and pilots flying into downtown St. Louis. This is why they were named a CAA Preferred FBO in their first year of business.

“When I acquired Ideal Aviation in 2011, my goal was to take an established FBO into the rest of the 21st century,” Ideal Aviation’s owner, Bill Macon voiced. “The Paragon Network’s advanced networking solutions will assist us in accelerating the process.”

The Paragon Network is a distinguished membership of independent FBO’s that provide an elite experience to general aviation travelers in North America. Paragon Aviation Group performs a comprehensive audit of the facility and services offered to ensure the quality of the member base before any FBO joins The Paragon Network. Each member FBO must comply with a set of strategically developed core standards in order to remain in the group. Paragon Aviation Group facilitates The Paragon Network.

Paragon Aviation Group is owned and operated by Delk’s Valley Oil, a family business comprised of Mike Delk, Megan Barnes and Molly LeBlanc. With their combined industry experience of over 70 years they have introduced an exciting new industry platform for premier aviation service providers.
