The Ohio State University Airport Joins The Paragon Network™

The Ohio State University Airport in Columbus, OH (KOSU), is now an elite member of The Paragon Network™.

The Ohio State University Airport at Don Scott Field (KOSU) is the Premier FBO in Columbus, OH. Their customer service team is always ready to assist you with any of your passenger, aircraft and crew needs. Their elite FBO is only 10 minutes from Ohio State University and just 15 minutes from The Columbus Zoo and Murfield Village Golf Club. The Ohio State University Airport's state-of-the-art facility features a private pilot lounge, sleep rooms with DirecTV, an on-site restaurant, pilot shop and more! I would state something about proximity to CMH too for crew swaps and downtown in general.

"We are thrilled to have the opportunity to work with The Paragon Network's elite group of FBOs," stated Michael Eppley, FBO General Manager of The Ohio State University Airport. "Our airport is not only well

positioned in the Columbus market, but in addition we offer a premier facility with a competitive price. I look forward to working with the other FBOs in the network and sharing the benefits of choosing us as their preferred FBO in Columbus. We work hard to not only meet, but exceed each customer's expectation every visit. Joining up with these exceptional FBOs will provide us the opportunity to take our great safety and service standards to an even higher level."

PARAGON NETWORK CUSTOMER REVIEWS

★★★★★ I have been parking at Fargo Jet Center for quite a few years. The service I receive is always better than expected. Frequently when I taxi up, I have this thought. "Just think how small and fragile a snowflake is, yet when they all work together, we know what they can accomplish." I see a team all working together. There must be some good management, followed by great communication between the front desk and the line staff. Keep up the good work.

- Hilary G. on Fargo Jet Center (KFAR)

★★★★★ We recently flew into KISM and chose Odyssey for our FBO. Upon taxiing in we were met by Jelena, who guided us into the ramp. The rental car was ready and waiting for us on the ramp. This was one of the quickest times we have been on the ground and then on our way after landing and leaving the plane with an FBO. Odyssey is a very nice FBO facility. Reasonably priced hangar space and fuel. CSRs Sam, Debra, and Sienna were professional, courteous and knowledgeable. It is a pleasure to find an FBO that has great customer service from arrival to departure. Based on other reviews of Odyssey, we agree that they consistently get it right. Highly recommend Odyssey when flying into KISM.

- Bruce G. on Odyssey Aviation (KISM)

★★★★★ Nice facility and nice people. I wish more FBOs were like this. Always a pleasure to visit here. Line guys were very helpful - gave me a parking spot out of the way where I could lock the rudder on my King Air 350. This is a great CAA location.

- Dan H. on Fontainebleau Aviation (KOPF)

★★★★★ Stopped into FJC for a quick turn. Great experience! Bryan L. Marshaled me in and fueled my aircraft immediately. Was very careful moving the aircraft due to traffic on the ramp. Those of us who have had hangar rash know how much that is appreciated. Megan, at the CSR desk, was excellent getting me in and out with a crew car for a quick errand. She also noticed a problem with my account and addressed it before I returned. Awesome! Wish I had a few more minutes to spend by the fire.... Great stop! Thank you!

- Mike M. on Fargo Jet Center (KFAR)

★★★★★ Fly in here a few times a year in the Skylane for OSU football games and occasional business trips. Competent and helpful ATC services both from Columbus Approach and OSU tower personnel. Line service and front desk personnel are both courteous and efficient. A special shout out to Roger Tucker who heads up the Maintenance division here. On a recent trip, a maintenance issue was discovered upon landing that required us to leave the plane overnight on a weekend. Counter personnel assisted me with a

rental car, on Monday morning, Roger prioritized my aircraft into his maintenance operation (which is so busy they have a night shift). My plane was inspected, tested and returned to service in very prompt fashion at a reasonable cost.

- **Bob W. on The Ohio State University Airport (KOSU)**

★★★★★ Best FBO in Minnesota! Flew my Piper Warrior in to Flying Cloud Airport on a cold December morning to pick up passengers, and I was greeted by 3 line technicians who offered to get me anything and had the fuel truck ready. Very clean facilities. Great location. Friendly staff. Would highly recommend! 10/10!

- **Wesley D. on Premier Jet Center (KFCM)**

★★★★★ Was in and out quick!

- **Andy N. on DuPage Flight Center (KDPA)**

★★★★★ Easy_off_easy_on from exit 2 of interstate 684, airport road is also known as state route 120 and it strattles the Connecticut/New York State line. Only about 7 miles from downtown White Plains. This location is also just over the northern border with "back country" Greenwich Connecticut and is easy to access from exits 27/27A of Merritt parkway (Connecticut) and Hutchinson parkway (New York) side.

- **Anthony R. on Ross Aviation (KHPN)**

★★★★★ Best FBO around!

- **P.B. on Odyssey Aviation (KISM)**

★★★★★ The new terminal building is amazing. Yes the old building had its "charm" but the building now is so much more open and the views are amazing. I was shocked when I saw the construction of the building has completed 5 months ahead of schedule! It's a great place to take the kids to see airplanes. The staff has always been friendly and yes, there is still popcorn available!

- **Matthew W. on The Ohio State University Airport (KOSU)**

The Paragon Network™ is a distinguished membership of elite FBO's and international handling agents that provide world-class service to general aviation travelers around the globe. Paragon Aviation Group® performs a comprehensive audit of the facilities and service offered to ensure the quality of the member base before any FBO joins The Paragon Network™.
