October 2019 Newsletter

Paragon Aviation Group® Continues Successful "Fly for a Cure" Campaign

The Paragon Network® continues to raise funds and awareness for breast cancer with their "Fly for a Cure" campaign during the month of October, the official National Breast Cancer Awareness month.

Since launching their first breast cancer awareness campaign in 2015, Paragon Aviation Group® has donated thousands of dollars for breast cancer research thanks in part to the generosity of their member FBOs. As in past years, participating members of the Paragon Network® will donate a portion of their fuel or service revenue generated in October to organizations supporting the prevention and treatment of breast cancer. In addition, those participating FBOs are handing out a variety of items including "Fly for a Cure" bracelets, pens and lip balm to keep the cause in the forefront throughout the year and not only in October. Paragon Aviation Group® will also make a donation to the National Breast Cancer Foundation, Inc. for every online survey completed during the month of October. Show your support by flying into a Paragon Network® FBO and share your experience at www.FlyForACure.net.

Bring Theodore on a Flight for a chance to win a \$250 Gift Card!

Paragon Aviation Group® is excited to introduce Theodore, our “Fly for a Cure” teddy bear mascot raising awareness for National Breast Cancer Awareness month. Theodore’s goal is to “fly” to as many FBOs as possible, especially to Paragon FBO member locations! He will start his journey from Henriksen Jet Center (KTME) in Houston, TX on Tuesday, October 1st and have until October 31st to see how many FBOs he can visit to help spread the word about early detection and raise money for breast cancer research.

[Click here to learn more about Theodore.](#)

After Hurricane Dorian tore through the Bahamas, an unprecedented collection of private citizens and businesses, together with NEMA and local and international NGOs, came together in a hangar at Odyssey Aviation to collaborate and organize an immediate response to the catastrophic national emergency resulting from Hurricane Dorian.

What was organized there is a fully-functioning evacuation center, a disaster relief logistics center and an evacuee welcome center.

As critically ill persons were identified in Abaco and Grand Bahama, they were picked up as soon as it was safe for planes and helicopters to fly, and brought to Odyssey. There, an enclosed, fully-staffed and equipped triage station was set up by the Ministry of Health, with an ambulance standing by outside to transport patients to the hospital as needed. A baby was delivered by the triage staff on Sunday night. The mother had gone into labor on the airplane bringing her there...

ExecuJet has a global network of 27 FBOs and extensive experience with day-to-day FBO operations around the world. They understand how to customize procedures and SMS to meet the criteria of the IS-BAH standard.

While it is entirely voluntary, IS-BAH provides a global standard for business aviation ground handling agents to meet SMS requirements. Having this standard in place sends a very clear message to your customers that you're serious about safety. This is a critical differentiator for the discerning traveler in today's competitive business aviation market.

New Hampshire FBO Looks to Future With Sustainable Aviation Fuel

An inquiry from a major business aircraft OEM led Paul Davy, Manager of Port City Air at New Hampshire's Portsmouth International Airport at Pease (PSM), to research the possibility of his facility offering sustainable aviation fuel (SAF) derived from renewable energy sources.

Davy reported he didn't know much about such fuels when the manufacturer asked him last fall about storing SAF for use in their aircraft. "I immediately scoured the internet for resources to educate myself about these fuels," he said. "The best resource I found was the 'Business Aviation Guide to the Use of Sustainable Alternative Jet Fuel'."

Developed by NBAA and a coalition of international aviation groups, the guide was introduced at the 2018 European Business Aviation Convention & Exhibition (EBACE) in Geneva, Switzerland. Davy said it provided him with, "perspective on sustainable aviation fuel, and valuable information regarding its certification by most if not all business aviation aircraft and engine manufacturers."

**PARAGON NETWORK
CUSTOMER REVIEWS**

★★★★★ Nice shaded canopy for loading and unloading. I bought 30 gallons of fuel and there was no ramp fee or

tie down fee. (I hadn't checked on a minimum fuel purchase to waive, if any.) Nice facility and staff!
- **Fred B. on Henriksen Jet Center Austin (KEDC)**

★★★★★ The staff here are awesome. Accommodated 10 helicopters and a 100 people for hurricane disaster response on a moment's notice, flawlessly executed support. Hope we get stuck here often :)
- **Tim H. on Lowcountry Aviation (KRBW)**

★★★★★ I have been based at KHPN for about 50 years. I was there for the name changes from Panorama Flight Service to Ross Aviation West. I now live in Florida but return to KHPN for two months each year. They have excellent service, a beautiful facility and great staff. Eric Faulkner and Mike Hilton run an excellent line service with a great group of guys that treat me with great respect. I very much appreciate the excellent attention to one of the old guys. This is a great place to visit for general Piston/Jet aviation and corporate Jet aviation. Congratulations on the many years of excellence.
- **Elliott S. on Ross Aviation White Plains (KHPN)**

★★★★★ Best place to travel from!
- **Shahzad A. on ExecuJet Dubai Int'l (OMDB)**

★★★★★ This FBO is by far one of the friendliest and accommodating. Always greeted well by the front desk and line staff. This is the place you want to be at KISM. Thanks again Odyssey for a job well done!
- **Orlando B. on Odyssey Aviation Kissimmee (KISM)**

★★★★★ Great prices aside, it's the service which really makes Silverhawk stand out. An all around well-run FBO.
- **Alan G. on Silverhawk Aviation (KLNK)**

★★★★★ Awesome place!
- **Simon B. on ExecuJet Melbourne (YMEN)**

★★★★★ We flew our 172 in Sept 2019 and were promptly guided to a tie down spot, tied down and quickly fueled. Moments later our Enterprise auto was delivered to the spot. The FBO had made the arrangements for us the night before. Service was exemplary. The facility is impressive. They made us happy and comfortable. Controllers were also accommodating. Nice Job!
- **Marilyn F. on The Ohio State University Airport (KOSU)**

★★★★★ Gorgeous!
- **Christian V. on ExecuJet Zurich (LSZH)**

★★★★★ Excellent hospitality and amazing service!
- **Ehti S. on ExecuJet Dubai South (OMDW)**

★★★★★ Austin Executive Airport sets the bar for other FBOs to follow. They are friendly, professional, and competent. As the Chair of a very busy State Board, I fly into Austin often. I will now use Austin Executive exclusively!
- **Steve C. on Henriksen Jet Center Austin (KEDC)**

★★★★★ Great friendly service and staff!
- **Aaron H. on Ross Aviation White Plains (KHPN)**

★★★★★ Amazing place!
- **Simon B. on ExecuJet Sydney (YSSY)**

★★★★★ What a fantastic experience! Great service. No ramp fees. Free courtesy car even though I was only able to take 12 gallons of AvGas. Did I mention the car was brand spanking new and fully loaded? I highly recommend these folks and hope to be back.
- **Adam S. on Silverhawk Aviation (KLNK)**
